Safety & Transparency:

You Control Everything

Block-Chain & Decentralization

Block-chain-Based Transparency

Secure, transparent transaction records on BSC.

Non-Custodial System

Users have full ownership and control over their Tokens.

Smart Contract Automation

Self-executing operations, minimizing human interference.

Immutable Smart Contract

Code is permanent, preventing unauthorized alterations.

What is TRUST Token?

Block-Chain-Based Platform

Community-driven ecosystem on Binance Smart Chain.

Passive & Active Earnings

LP Rewards, Referrals and Binary Rewards.

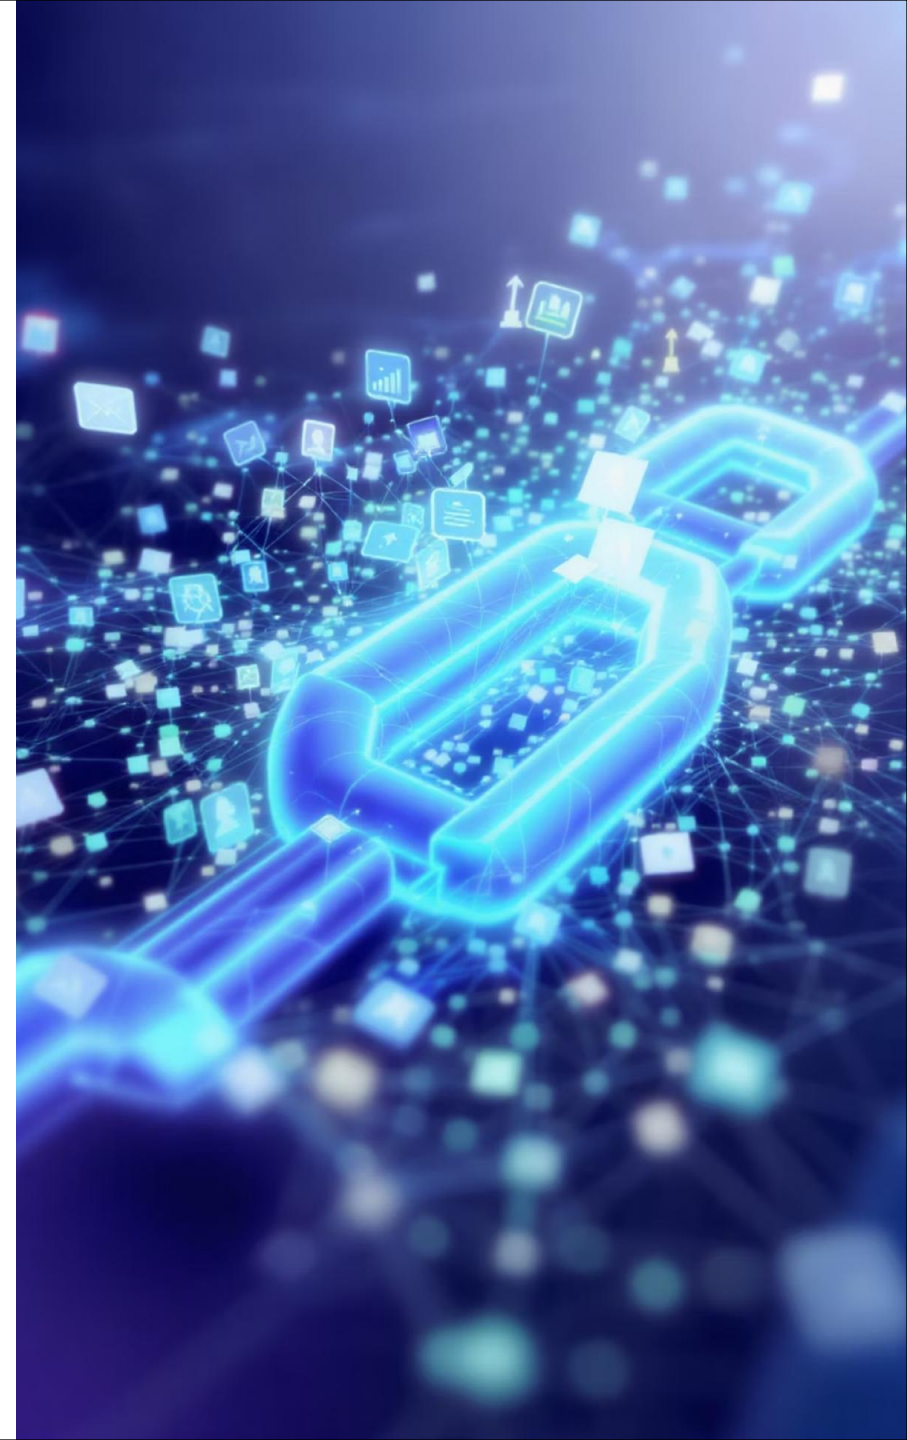

Token Minting & Growth

TRST Tokens Price Appreciate with Minting & Burning.

Smart Contract Automation

No middlemen, delays, or manual interventions.

"Trust Token Is Built To Grow In Value With Every Move.

- Add Liquidity? Price Goes Up.
- Claim Rewards? Tokens Burn—Supply Drops, Price Climbs.
- Sell Or Transfer Tokens? More Burning, More Value For Holders.

Every Action Tightens Supply And Lifts Price—Automatically.

- This System Is A Bold Challenge To The Crypto World:
- *Trust Token Isn't Just Deflationary—It's Designed To Never Drop In Price. Not Even By A Cent.*
- If You Hold, You Win. That's The Trust Token Promise.**
